BENECOR[®] FUEL STATIONARY BULK DISPENSING & STORAGE

BENECOR[®] FUELPod VERSATILE TANKS

BENECOR[®] FuelPod Versatile Fuel Tanks range from 663 Gallons (2,500L) to 5,812 Gallons (22,000L) and are certified, guaranteeing for safe and secure transportation under regulations on all major roadways, even when full.

LARGE STATIONARY BULK REFUELING

BENECOR[®] FuelPod Versatile Tanks are designed for stationary use on medium to large scale refueling applications for the safe and secure transport and storage of various industrial and hazardous liquids worldwide.

UNIQUE DESIGN STANDARD

BENECOR[®] FuelPod Versatile Tanks come complete with two galvanized hatch lids and galvanized stacking corners. The innovative design also allows the primary hatch lid to open up to a component ports plate. This component ports plate doubles up to act as a manhole cover. This innovative doubling up of design features has created space on the top lid of the BENECOR[®] FuelPod Tank for a secondary hatch plate.

MAINTENANCE & ENVIRONMENT

The Fuel Pod is comprised of an innovative double wall tank design which comes with a removable flow forge spill tray floor. It is constructed with a raised pedestrian door to allow for seepage control and employs a man-way cover conveniently located on the rooftop to provide easy access for cleaning, maintenance and inspections.

SAFETY & SECURITY

All BENECOR[®] FuelPod Versatile Tank has a walk in pedestrian door with a secure 3 point locking system, ensuring it is static and safe during fueling.

DISPENSING & ACCESSIBILITY

The BENECOR[®] FuelPod Versatile Tank Range has an easily accessible camlock fill pipe connection point conveniently located just inside the pedestrian door. The Range also has an ingenious bracket system that houses 13' (4M) to 19.68' (6M) standard hose reels and dispensing nozzles with either analog or digital gauges. An optional 26.25' (8M) to 49' (15M) retractable hose is also available. Finally the Fuel Pod Tanks can be conveniently adapted with a fuel management system.
