

BENECOR AUTOMATIC DEF NOZZLES

Both BENECOR'S Automatic DEF Nozzle & Magnetic Misfill Prevention DEF Nozzles are equipped with a device that automatically shuts off the flow of diesel exhaust fluid when the tank is full. Our nozzles conform to the strictest safety requirements. The BENECOR Magnetic Misfill Prevention DEF Nozzles is designed for use on OEM products. The strong and comfortable housing encased in rubber protects the nozzle from shocks and makes the grip comfortable even at low temperatures. The lever protection helps to prevent accidental dispensing and the swivel connector provides convenience while pumping.
