

In response to the Covid-19 Coronavirus, on March 23, 2020, an executive order was mandated by the State of Michigan that the workforce of non-essential businesses must shelter in place. Benecor plays a critical role in the supply of materials and services used in the response to Covid-19 outbreak in the energy, power generation and transportation system, we have an obligation to remain open.

Our priority is to protect the health and safety of our employees and their families, as well as our customers and supply partners. Our staff will be working remotely and we are reducing our plant staff on site and practicing social distancing and taking all precautionary measures established by the CDC and WHO.

Our team will provide you with updates regarding your current orders in process and provide updates based on supply chain changes or delays.

We have suspended all travel to supplier and customer sites and restricted visits to our facility until further notice.

We will continue monitor the current conditions and keep you informed in a timely manner.

Thank you for your continued support, please be safe and stay healthy.
