 DEF 25 Ft. CRIMPED HOSE: 800-HOSE25 Non-Swivel

**Kit Part Numbers**  
 HSK-3420NSH - 20 Ft. Hose Assembly With Fittings, Crimped Hose, Breakaway Swivel & Nozzle  
 HSK-3425NSH - 25 Ft. Hose Assembly With Fittings, Crimped Hose, Breakaway Swivel & Nozzle

#### DEF Hose Assembly with Breakaway Swivel

Our DEF Hose Assembly coupled with a 3/4" Breakaway Swivel is designed to stop the flow of diesel exhaust fluid when separation occurs.

*Note: Breakaway Swivels NEED to be paired with a 3/4" Hose Barb x 3/4" Male BSPP in order to function properly. Without this part, your hose will be susceptible to improper hose retraction overtime in the reel causing increased hose wear and no protection from nozzle separation from drive offs.*

#### Part Numbers

- DEF 20 Ft. Hose Assembly: HSK-3420NSH
- DEF 25 Ft. Hose Assembly: HSK-3425NSH
- DEF 20 Ft. Crimped Hose: 800-HOSE20 Non-Swivel

#### Recommended Dispensing Applications:

**CHOOSE BETWEEN:**  
 A. 3/4" HOSE BARB x 3/4" MALE NPT: 510-HB34NPT  
 B. 3/4" HOSE BARB x 1" MALE NPT: 510-HB1NPT

### STANDARD TOTE & BARREL DISPENSERS

#### DEF Standard Hose Assembly with Swivel

Our DEF Standard Hose Assembly with Swivel is designed to offer easy rotation and movement of the nozzle.

*Note: Standard Nozzle Swivels are NOT to be paired with a Breakaway Swivel. If you connect a Standard Swivel to a Breakaway Swivel, this could result in the Standard Swivel being the first to break resulting in diesel exhaust fluid leakage and spraying.*
